Tips

Bluetooth signal is easily interfered in the following environment:
1. Compact environment with multiple Wi-Fi signals and Bluetooth signals.
2. Airport, railway, metro where electromagnetic interference is strong.
3. Left earbud is master earbud. When using the earbuds, it would guarantee more stable connection if the paired device is near the left earbud.
4. Current Bluetooth technology cannot guarantee synchronization of gaming and video playing.
5. During game, the microphone of the earphones may be blocked by water, sweat, oil, etc., which will affect the active noise control effect, or you may hear abnormal sound (beeping sound). In these cases, it is suggested to use a dry lint-free soft cloth to clean the earphone or dry it by itself air.

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio-frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
