This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment is approved for Class I, Division 2, Groups ABCD hazardous locations.

A rectangular metal plate, likely aluminum, with rounded corners. It features ten mounting holes: two on each of the four corners and one centered on each of the longer sides. On the right side, there is a recessed rectangular area containing a USB Type-C port. At the top edge, four colored caps (two red, one blue, one red) are visible, suggesting a multi-pin connector. A red rectangular box is overlaid on the left side of the plate.
