

● Overview:

The product is the Bluetooth controller suit for P-4 console, with wonderful appearance, applying MICRO USB Plug to pair code with P-4 console, after connected , it could operation under wireless. Supporting P-4 console different version, with dual vibration function.

● Product function introduction:

As picture, product each component with its function instruction:

1. Direction button 2. SHARE press button
3. Pressing board 4. Options button
5. ○ Button 6. △ Button 7. □ Button 8. ☆ Button
9. Right operation stick/R3 button. Pressing operation stick can use R3 function.
10. PS button 11. Left operation stick/L3 button. Pressing operation stick can use L3 function.
12. L1 button 13. L2 button
14. USB port 15. LED light
16. R1 button 17. R2 button

● Handle instruction:

1. Connecting console power, switch on console, enter normal standby interface.
2. Inserting attached MICRO USB of controller cable into console, other side insert controller, pressing controller HOME button to connect.
3. Front light bar on of controller, press function button of controller begin gaming console operation, it means controller connecting successful.
4. During normal gaming operation period, controller will vibrating based on the rule of game, controller applying for dual sides motor, left vibration feeling stronger that right side.

● Specification parameter:

Input voltage: DC 5V
Working current (no vibration) : ≤60mA
Motor vibration current: ≤120mA;
Paired-code current: 820MA
Attached controller cable length 2 meters.
Product weight: 187g
Product size: 155*100*55mm
Package size: 170*113*72mm

● Product maintenance and minding:

- ※ Please careful to read specification handbook while using.
- ※ Prohibited to dismantle/modify or try to every behavior which disadvantage for the product!
- ※ Please using wet cloth to clean the dust, prohibit to use chemical solvent to wipe!
- ※ When product processing technology or version update, forgive for no informing again!

FCC Caution :

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
