	CE Made in China

Imported by: Lumen Labs Inc, 1 Financial Center, FL 40, Boston, MA 02111 (617) 528-9968
Lumen Labs (HK) Limited, Unit 212C, IC Development Center, 6 Science Park West Avenue, Hong Kong Science and Technology Park, Shatin N.T. Hong Kong

Warning: For maximum protection, helmet must be fitted, positioned, and attached properly according to fitting instructions. Fasten helmet securely under the jaw. After an impact, visible and non-visible damage may be present that makes the helmet inadequate for further use. If helmet shows signs of damage, destroy and replace it. If helmet receives a severe blow, even if apparently undamaged, destroy and replace it. Helmet can be seriously damaged by substances such as petrol, paint, adhesives, or cleaning agents. This damage may not be visible. To clean, wipe with mild soap and water only.

Warning:

Lumos is designed to be a supplement, and NOT a replacement to hand signals. Please continue to give hand signals while cycling on the road. While we designed the "hard brake" and turn signals to be as recognizable and intuitive as possible, we make no claim that motorists or people around you will recognize what they mean, or that they will see it. Having lights is good practice, but is no guarantee against preventing an accident or collision.

Warning! This helmet should not be used by children while climbing or doing other activities when there is a risk of strangulation hanging if the child gets trapped with the helmet.

Warning: When activating the turn signal, glance at the remote to ensure that you activated the correct turn signal. Activating the wrong turn signal or leaving your turn signal on can be very hazardous and can potentially increase the risk of a collision due to the miscommunication. After completing your turn, also be sure to turn the turn signal off.

Warning: This helmet is not designed for motor vehicle use and not for sports other than those for which it was certified. Every time you use this helmet check that nothing is badly torn, worn, missing, or out of adjustment. This helmet should not be used by children while climbing or doing activities when there is a risk of the child hanging himself or herself. For proper fit, follow the instructions provided in the manual.
