(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

CE

A black wireless headset with a microphone, shown from a top-down perspective. The headset has a large ear cup on the left side and a smaller ear cup on the right side. A flexible boom microphone is attached to the right side. The headset is resting on a light-colored, textured surface. A green arrow originates from the right side of the headset and points diagonally upwards and to the right, towards the top right corner of the page.
