Please carefully read the installation manual before installation work.

Kumoh
S062_EN1907_R03

► Before installation - Checking the parts

■ Only ordered items are include in this package.

**CAUTION -When handling the double-sided tape.**

1. After removing the protective film from the double-sided adhesive tape, preserve the tape so that it doesn't get dirty. If touching the tape with a hand or foreign materials get on it, its adhesive strength can be significantly deteriorated.
2. The adhesive tape will have full adhesive strength after the 24 hours from its placement. Please do not use the products right after its placement.

► How to insert the price tag

**The price tag is not included in this package. Please print the price tag locally and insert it into the price tag slot.**

- Material : Matte-Coated, 300g /m2
- Size : Width - 55mm /Height - 10mm

Hold the front part of the Device Module(a) clear cover with your hand and separate the cover using moderate force with care to avoid damage. Insert the price tag into the slot, and assemble the clear cover again.

► How to install

**CAUTION BEFORE INSTALLATION:**

Make sure to assemble the security holder after pairing between S-Pen and a smartphone through the smartphone and retail mode app setup.

Troubleshooting

How to uninstall

Make sure to turn off the control box before uninstalling.

1) FCC Compliance Statement
This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

2) FCC Interference Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

3) FCC Caution
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

4) FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

1) Industry Canada Statement
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

2) Industry Canada Radiation Exposure Statement (Déclaration d'exposition aux radiations)
This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.
