WELCOME GUIDE

SCORPION PAD JET STAND

Model No AD35010

FCC Statement

Change or modification not expressly approved by the party responsible for compliance could void the user's warranty rights under the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates and can receive radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

Thank for choosing us!
This is a smart phone wireless charger that allows you enjoy the fun of digital products easily. Please kindly read the user manual before using and keep it for future reference.

Specification

Model No. AD35010
Product Name: Scorpion Pad Jet Stand
Input: 5V/1A, 5V/2A, 5V/3A, 5V/4A, 5V/5A
Size: 120x100x100mm

WALK-1070
Charging Distance: 10mm
Maximum Out: 20W/1.5A/1000mA
Frequency range: 100-1000MHz

Connect to Adapter

*Note: iPhone X, iPhone 8 & iPhone X Plus with iOS 11.2 or above can be Fast charging up to 7.5W.
*Note: Recommended to connect USB-A11 Adapter with Quick Charge 2.0/2.0 output to optimize the charging efficiency.

*Note: Do not cover the cooling fan with foreign matters, so as not to affect the wireless charging effect.
*Note: Do not block the optical sensor area where is on.

Charging Mode

Ready to charge

Charging

Cooling system

The wireless charging process is cooling fan and an optical sensor. The optical sensor can automatically recognize the brightness of the light spot in the charging process. When the brightness is too low or too high, the fan will start to work to cool the device. The fan will stop when the brightness is normal. The fan will start to work again when the brightness is too low or too high.

Attention

1. Do not expose or fall into.
2. Do not disassemble or throw into fire or water to avoid causing a short circuit hazard.
