

FCI Statement

The device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause unintended operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: The manufacturer has been notified by the Federal Communications Commission (FCC) that the use of this equipment in the United States is limited to Class B digital devices. This equipment is not authorized for use in the United States as a Class A digital device. If the equipment is used outside of the United States, the user must be aware that the equipment may cause harmful interference to a cochannel receiver. The equipment is guaranteed not to emit and radiate radio frequency energy and it is designed and built in accordance with the regulations, may cause harmful interference to radio communications. Therefore, there is no guarantee that interference will not occur in a particular situation. If the equipment does cause interference to radio communications, the user must take the following steps to correct the interference:

- Turn the equipment off for a short period of time to determine if the interference has ceased. If the interference is caused by the use of one of the following measures:
- Relocate the equipment.
- Change the equipment's operating frequency.
- Change the equipment's antenna.

• Contact the manufacturer for more information about the steps that the user is encouraged to take to correct the interference.

Caution: The user must not attempt to modify the equipment in any way that the user's authority is limited to. Contact the manufacturer for more information about the steps that the user is encouraged to take to correct the interference.

Declaration Statement

The manufacturer hereby declares that the equipment complies with the requirements for use in part 15 of the FCC rules and does not require any special measures. The data can be used in part 15 of the FCC rules without restriction.
