Subject; **Modular Transmitter Application**

Company name: **AeroGrow International, Inc.**
FCC ID: **2AJNO-MT7682**

Dear Sir/Madam,

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID: 2AZE4-HR1 has been examined against the following requirements.

Requirement per 15.212 and KDB 996369 D01	Yes/No	Explanation from Grantee (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Yes	The module have a RF shielding.
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	Yes	The module has it's own buffered modulation/data inputs unit.
The module must contain power supply regulation on the module.	Yes	The module has a power supply circuitry
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	Yes,	The module has a permanently antenna on the PCB.
The module must demonstrate compliance in a stand-alone configuration.	Yes,	The module compliance a stand-alone configuration.
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	Yes,	The label is pasted on the PCB of the module.
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes,	The module compliance all conditions provided in the integration instructions by the grantee.

AeroGrow International, Inc.

The module must comply with RF exposure requirements	Yes,	The module compliance with RF exposure requirements
