

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A black rugged tablet is shown lying flat on a blue surface. To its left is a black ruler with white markings in centimeters and millimeters. Above the tablet are two black cables: one with a coiled end and another with a straight end. To the right of the tablet is a small black rectangular object with a yellow pin-like protrusion. The tablet's screen displays a grid pattern, and its bottom edge features a row of buttons including a red power button.
EUT View 2	 A black rugged tablet is shown lying flat on a blue surface, similar to the first view. A black ruler with white markings is positioned to its left. The tablet's screen displays a grid pattern, and its bottom edge features a row of buttons, including a red power button.

EUT View 3	 A black, rectangular electronic device is shown from the back, resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the device, showing measurements from 0 to 100 mm. The device features a central circular gold-colored component, a small square sensor above it, and a larger rectangular sensor to the right. There are also some small circular components and a series of small gold pins at the top. The device has a rugged, slightly raised edge.
EUT View 4	 A black, rectangular electronic device is shown from the back, resting on a blue textured surface. A black ruler with white markings is placed vertically to the left of the device, showing measurements from 0 to 100 mm. The device features a central circular gold-colored component, a small square sensor above it, and a larger rectangular sensor to the right. There are also some small circular components and a series of small gold pins at the top. The device has a rugged, slightly raised edge.

EUT View 5	 A black mobile phone is shown from the back, lying on a blue textured surface. A black ruler with white markings is placed horizontally below the phone. The phone has a central camera lens, a flash, and a small rectangular sensor. The ruler shows measurements in millimeters and centimeters.
EUT View 6	 A black mobile phone is shown from the back, lying on a blue textured surface. A black ruler with white markings is placed horizontally below the phone. The phone has a central camera lens, a flash, and a small rectangular sensor. The ruler shows measurements in millimeters and centimeters.

EUT View 7	 A photograph showing the back of a black mobile phone. The phone is positioned vertically on a blue textured surface. A black ruler with white markings is placed horizontally below the phone, showing measurements in centimeters and millimeters. The phone's back features a central circular camera lens, a flash, and a small rectangular sensor. There are also some small gold-colored contacts or pins visible near the top edge of the phone.
EUT View 8	 A close-up photograph of the back of the same black mobile phone. The phone is positioned vertically on a blue textured surface. A black ruler with white markings is placed horizontally below the phone. The image focuses on the lower half of the phone, showing the camera lens, flash, and a small rectangular sensor. There are also some small gold-colored contacts or pins visible near the bottom edge of the phone.
