•PRODUCT BREAKDOWN

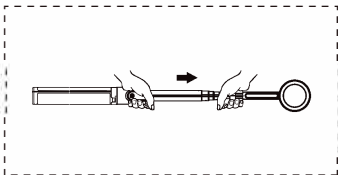

•RELEASE TRIPOD

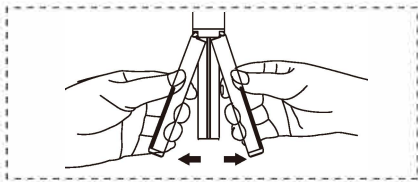

Step 1:
Unfold the phone holder to be upright.

Step 2:
Hold the handle sleeve with one hand and the pull handle of the phone holder with the other hand to pull out the telescopic rod. Adjust to desired height

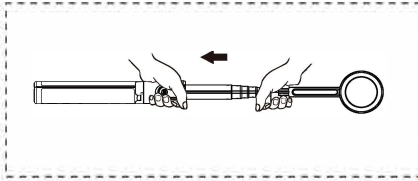

Step 3:
Pull legs to open tripod.

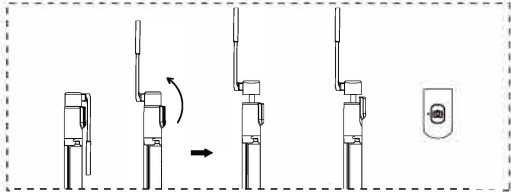

•FOLD TRIPOD

Hold the handle sleeve with one hand and push the telescopic rod back in.

•ATTACH/DETACH REMOTE CONTROLLER & CHARGING

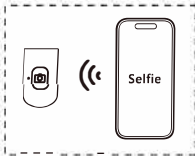

Bluetooth® Remote Controller
This product features a detachable Bluetooth® remote controller. To remove the remote, pull up the center rod of the tripod to create space, then slide the remote out from its slot. To reattach the remote, simply slide it back into the designated slot on the tripod until it fits securely.
Replacing the Button Battery
You can replace the button battery yourself. First, detach the Bluetooth® remote controller from the tripod. Then, carefully open the remote's battery compartment, remove the old battery, and insert a new one in its place. Ensure the battery is installed with the correct polarity before closing the compartment.

•Using the Bluetooth® Remote Controller

To power on and pair the remote:
Press and hold the shutter power button on the remote for 3 seconds until the blue indicator light starts flashing. On your smartphone or device, go to Settings Bluetooth® and make sure Bluetooth® is turned on. Look for "MAGSNAP" in the list of available devices and select it to connect. Once pairing is successful, the blue light will turn off, indicating the connection is complete.

To take photos:
While your smartphone is in camera mode, press the shutter button once to take a picture.
To power off the remote:
Press and hold the shutter/power button again for 3 seconds to turn off the Bluetooth® connection.

•FCC STATEMENT

FCC STATEMENT :
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and

on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
