Confirmation for ETU Variances of ETU9

Hereby we confirm that the following Electronic Trip Unit Types mentioned below are **electrically identical**, except that the Specification of the ETU is different as explained below.
Radio module EFR32MG24 from Silicon Labs is electrically the same in all variants listed below, including the Antenna ANT3216LL00R2400A, RF Power setting, RF matching networks, radio, and RF Firmware and Software.
The difference in the types of ETUs is firmware specific, and some hardware is additionally mounted or left to fulfill the functions and application of the ETU9, together with the MCCB, in the end application for customer use.
