

User Manual

Model: K838

- 1、 The real Wireless Pet Fence System.
- 2、 Large remote control distance, Centering on the transmitter, the maximum radius of 500 meters of remote control.
- 3、 Emitter signal strength by 0-100 file stepless adjustable, the corresponding receiver distance of 20-500 meters.
- 4、 Waterproof rechargeable receiver, economy is durable;
- 5、 Dog exceeds the range of motion, the wear of the receiver will automatically start the training function, and follow the voice warning first, and then static stimulation of the punishment to remind the dog back to the safety area.
- 6、 A transmitter can work simultaneously supports an unlimited number of receivers, and non-interference in each other.
- 7、 Emitter with digital display, visual display the current signal strength of the gear.
- 8、 The code is simple, the function set up quickly.
- 9、 When your dog into the boundary, the signal will make the dog's neck receiver send doodle warnings, If your dog continues to close to the border, the system will issue a slight vibration If your dog near again, the system will send a strong vibration until your dog back you have set up good boundary your dog will naturally you can discover the right direction, and it will be very good to stay within the range you have set up good.

Operation Frequency: 433.92MHz

Modulation Type: ASK

Antenna Type: PCB antenna

Antenna Gain: 0 dBi

Input: DC5V 300mA

Note: The USB port is only use for charging, No data transmission function.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
