MAIN BOARD BACK VIEW 1

A photograph of a red printed circuit board (PCB) with various electronic components. A red box highlights a specific component, and a red arrow points to it with the label 'RF CHIP'. The PCB is placed on a white surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 80 mm) and centimeters (0 to 10 cm). The PCB has a red solder mask and features several components, including a large black integrated circuit (IC) in the center, a smaller black IC to its right, and various passive components like resistors and capacitors. A red box is drawn around the central black IC, and a red arrow points from the text 'RF CHIP' to this box. The PCB also has a white logo on the left side and some text printed on it, including 'U4 3' and 'U4 3'.

A red RISINGHF RHF76-052 module is shown next to a ruler. The module is a small, rectangular circuit board with a red solder mask. It features a central black integrated circuit (IC) and various surface components. The text on the module includes "RHF76-052", "2015-09-22_v2.0", and the RISINGHF logo. The ruler shows the module is approximately 15mm wide and 10mm high.
