How to Pair

Pairing Mode:

Press and hold the power button for 3 seconds to turn on the headphones. Once turned on, the headphones will automatically enter pairing mode and the indicator light will flash between blue and red. If pairing is successful, the light will flash blue and then stop.

Connect to Bluetooth:

Search for "iTOUCH PULSE VIBE PRO" in the Bluetooth settings on your mobile phone and connect.

Disconnect Bluetooth:

Either disconnect the device through your mobile phone's Bluetooth settings or have the headphones be out of range for them to disconnect. If Bluetooth is turned on again, the headphones will automatically connect to your mobile phone.

1. Bluetooth search name is "iTOUCH PULSE VIBE PRO"
2. Headphones will automatically connect to your mobile phone when turned on. If it doesn't automatically connect, you can connect it by pressing it briefly.
4. If the headphones cannot connect to the mobile phone, please disconnect from your mobile phone's Bluetooth settings, restart the headphones then pair and connect.

6

Aux in Mode

Connect the headphones to a music player/mobile device via the provided 3.5mm audio cable.

Bluetooth connection, microphone voice pick-up, media playback and phone call functions are not available in Aux in mode.

7

Charging

Charge the headphones with the provided type C charging cable.

8

Safety Precautions

To ensure safe and optimal use of your headphones, keep the volume at a moderate level. Around 60 percent is recommended, and extended listening sessions should be avoided. Use only the included charging cable, and do not charge the device near water, high temperatures, or in direct sunlight. If the headphones or cable become hot, emit an unusual odor, or appear damaged or deformed, discontinue use immediately.

Avoid exposing the headphones to moisture, including rain, sweat, or humid environments. This product is not waterproof or water resistant. It is not a toy and should be kept out of the reach of young children.

For your safety, refrain from wearing headphones while driving, cycling, or walking near traffic, as they may reduce environmental awareness. If you experience skin irritation or discomfort during use, discontinue use and consult a medical professional.

9

Compliance Statement

This product complies with international safety and quality standards required for consumer electronics. It has been tested and certified for use in accordance with applicable regulatory requirements, including:

FCCID: 2AJXA-PULSEVIBEPRO

FCC Declaration of Conformity:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)

This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

California Proposition 65:

This product complies with California Proposition 65 No harmful chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm are intentionally used.

Short Circuit & Overcurrent Protection:

Built-in safety mechanisms prevent short circuits, overcharging, and excessive current, protecting your device and ensuring reliable charging.

12

CE Marking:

Indicates conformity with health, safety, and environmental protection standards for products sold within the EEA.

RoHS Compliance:

This product is manufactured in compliance with the Restriction of Hazardous Substances Directive, limiting the use of certain hazardous materials in electrical and electronic equipment.

UKCA Marking (For the United Kingdom):

Demonstrates conformity with UK safety, electromagnetic compatibility (EMC), and environmental standards.

WEEE Directive:

Do not dispose of this product in household waste. Please recycle responsibly according to local electronic waste regulations.
