

The image shows the back of a white, rectangular remote control with rounded corners. The remote is placed on a dark brown, textured surface. A white label is affixed to the back, containing the following text: "MyCurtains Remote Zigbee", "Model: CP19DRCZ-01", "FCC ID: 2AJXX100289", and "IC: 22151-CP19DRCZ01". The remote's surface has a fine, diagonal ribbed texture. There are four small, white, conical protrusions (likely for mounting or screws) located at the top-left, top-right, bottom-left, and bottom-right corners. A small, circular hole is visible near the bottom center of the device.
