

Appendix 2 Photodocumentation

Description: Module mounted on evaluation board
and antennas connected

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 4 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Antennas used for 2,4 GHz tests

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 5 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Antennas used for 5 GHz tests

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 6 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Test setup radiated emission below 30 MHz

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 7 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Test setup radiated emission 30 MHz-1GHz

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 8 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Test setup radiated emission 1GHz-18GHz

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 9 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Test setup radiated emission above 18 GHz

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 10 of 11

Date: 19.12.2016

checked by: _____

Appendix 2 Photodocumentation

Description: Test setup detail view

Division:
Industry & Energy

Department: FG

Test report reference:
M/FG-16/136

Page: 11 of 11

Date: 19.12.2016
