Equipment Authorization Approval Request for FCC ID: 2AJZKS1PICO

To Whom It May Concern:

PicoBrew Inc. hereby requests original equipment certification according to section 15.225. The Part 15 C Requirements have been met for this certification, and will be discussed below.

The RFID antenna is permanently integrated into the RFID PCB, this PCB will be installed in the appliance by a contract manufacturer at the factory during production. It contains a non-modifiable loop antenna constructed into the circuit board, there are no antenna plugs. This antenna is directly connected to, and powered by the intentional radiator.

In addition to the above mentioned RFID radio, this unit contains a pre-certified Wi-Fi module with FCC ID Z64-CC3200MODR1.

This unit complies with all applicable FCC rules.
