

LET'S GET YOU SET UP

Quick Start Guide
Model No. FC100

What's in the Box

Console & 2 Trackers

HDMI Cable

USB Charging Cable

Mounting Hardware

Power Adapter

What You Need

High-speed Internet

Wireless Router or Ethernet

Mobile Device

TV with HDMI Port
(Recommended)

HOW TO SET UP THE CONSOLE

Estimated Setup Time: 5 min.

1 Flip the console over.

2 Lift the bottom panel up to access cable ports.

3 Plug the cables into the ports.

4 Re-attach the bottom panel and flip the console over.

5 Connect the console to power supply and TV.

6 Turn on your TV and scan the QR code to download or open the FightCamp app.

Follow the instructions in the app to finish setup.

If you're not using Console with a TV, scan this QR Code to download the app & continue setup.

HOW TO MOUNT THE FIGHTCAMP CONSOLE

Wall Mount Instructions
(Optional)

What You Need

Anchors (included)

Screws (included)

Screwdriver

Hammer

Pencil

Drill with
3/16" drill bit

1 Using the bottom panel as a guide, mark the two holes.

2 Drill two holes in the wall using a 3/16 inch drill bit.

3 Gently tap in the anchors with a hammer.

4 Align bottom panel holes with the anchor holes.

5 Insert the screws and slowly screw them in.

6 Attach the console to the bottom panel. Done!

FIGHTCAMP CONSOLE & TRACKERS

FCC Statements

Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF exposure statements

- 1) This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
- 2) This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body or nearby persons.

IC Statements

REN statement

The Ringer Equivalence Number (REN) indicates the maximum number of devices allowed to be connected to a telephone interface. The termination of an interface may consist of any combination of devices subject only to the requirement that the sum of the RENs of all the devices not exceed five.

Canadian Compliance Statement

This device complies with Industry Canada license-exempt RSSs. Operation is subject to the following two conditions: 1) This device may not cause interference, and 2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: 1) l'appareil ne doit pas produire de brouillage; 2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Caution:

1) The device for operation in the band 5150-5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems; 2) For devices with detachable antenna(s), the maximum antenna gain permitted for devices in the bands 5250-5350 MHz and 5470-5725 MHz shall be such that the equipment still complies with the e.i.r.p. limit; 3) For devices with detachable antenna(s), the maximum antenna gain permitted for devices in the band 5725-5850 MHz shall be such that the equipment still complies with the e.i.r.p. limits specified for point-to-point and non-point-to-point operation as appropriate; and The high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

DFS (Dynamic Frequency Selection) products that operate in the bands 5250- 5350 MHz, 5470-5600MHz, and 5650-5725MHz.

Avertissement:

1) Le dispositif fonctionnant dans la bande 5150-5250 MHz est réservé uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux; 2) Le gain maximal d'antenne permis pour les dispositifs avec antenne(s) amovible(s) utilisant les bandes 5250-5350 MHz et 5470-5725 MHz doit se conformer à la limitation P.I.R.E.; 3) Le gain maximal d'antenne permis pour les dispositifs avec antenne(s) amovible(s) utilisant la bande 5725-5850 MHz doit se conformer à la limitation P.I.R.E. spécifiée pour l'exploitation point à point et non point à point, selon le cas. En outre, les utilisateurs devraient aussi être avisés que les utilisateurs de radars de haute puissance sont désignés utilisateurs principaux (c.-à-d., qu'ils ont la priorité) pour les bandes 5250-5350 MHz et 5650-5850 MHz et que ces radars pourraient causer du brouillage et/ou des dommages aux dispositifs LAN-EL. Les produits utilisant la technique d'atténuation DFS (sélection dynamique des fréquences) sur les bandes 5250- 5350 MHz, 5470-5600MHz et 5650-5725MHz.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

This product meets the applicable Innovation, Science and Economic Development Canada technical specifications.

UV Exposure

Prolonged exposure to direct sunlight may cause discoloration of Console.

HDMI Warning

"The Adopted Trademarks HDMI, HDMI High Definition Multimedia Interface, HDMI trade dress and the HDMI Logos are trademarks or registered trademarks of HDMI Licensing Administrator, Inc. in the United States and other countries." OR "The terms HDMI, HDMI High Definition Multimedia Interface, HDMI trade dress and the HDMI Logos are trademarks or registered trademarks of HDMI Licensing Administrator, Inc."

Technical Specifications

Power Consumption	10W
Power Input	DC 4.75 - 5.25 V, Input: 2.1A-1.9A
Connectivity	Ethernet 10/100 Mbps
Dimensions	220 X 100 X 33.2 mm
Operating Temperature	0°C to 40°C/32°F to 104°F, 5-90% humidity
Weight	311grams
Including Accessories	X2 wall screws, X2 drywall anchors, X1 1.5 meter USB C to USB A charging cable, 1.5 meter HDMI cable, X1 adapter, X2 trackers
Mounting Options	Base Plate

Model No. FC100 (Console), FC200 (Tracker)
FCC ID: 2AK2R-CNSL, 2AK2R-TRKR
IC ID: 22370-CNSL, 22370-TRKR
