Notes: (1) Not Required. A certified WLAN module is being used, so only Radiated Spurious Emissions and AC Powerline Conducted Emissions testing was performed.

(2) Two antennas are externally connected to the EUT via coaxial cables with standard SMA connectors, but after professional installation, the antenna connectors are not accessible to the end user since the EUT is installed inside an electrical control box with only the display screen exposed.

2.4 Operating Modes and Conditions

The EUT was powered by a 120-to-24Vac step-down transformer provided by the client. Test mode commands were issued to turn on the WLAN transmit signals at maximum power. A power setting of 44 was used and the worst-case data rates were tested for each data mode based on the original test report for the certified module. Low, middle and high WLAN channels were tested for the 2.4GHz band.

Test Description	Test Specification		Test Result

3.2 Test Method

The measurement methods defined in ANSI C63.10: 2013 were used.

The lowest, middle and highest channels were tested for 2.4GHz WLAN. IEEE 802.11b, g and n(HT20) modes were tested using the worst-case data rates for each mode based on the original certified WLAN module test reports. The n(HT40) mode was not tested since those signals have lower power spectral density than the narrower n(HT20) signals.

The EUT was tested in 3 orientations (orthogonal axes) and the worst-case results were reported.

Test distance:

30 to 1000 MHz - The EUT to measurement antenna distance was 3 meters

1 to 18 GHz - The EUT to measurement antenna distance was 3 meters

18 to 26 GHz - The EUT to measurement antenna distance was 1 meter

Limits within restricted bands of operation:

Frequency	Limits ⁽¹⁾		Peak Limits dBuV/m
	Microvolts/m	dBuV/m	
30 - 88 MHz	100	40 ⁽²⁾	--
88 - 216 MHz	150	43.5 ⁽²⁾	--
216 - 960 MHz	200	46 ⁽²⁾	--
960 - 1000 MHz	500	54 ⁽²⁾	--
1 - 40 GHz	500	54 ⁽³⁾	74

(1) These limits are applicable to emissions outside of the intentional transmit frequency band.

(2) Quasi-peak limit

(3) Average limit
