

User Manual

Model: 90172

Please refer to this manual before using the product.
V0.0.1

Notes:

1.1 The company reserves the right to modify the contents of this manual without any further notification. It is normal that some functions may vary in certain versions of software.

1.2 Please charge this product with the configured cable for no less than 2 hours before using it.

1.3 Before using the product, you need to connect the APP synchronization time and set your personal information.

1.4 This product supports IP68 rank waterproof, not suitable for deep sea diving. Hot water, tea and other corrosive liquids are destructive to the watch, and will not be able to enjoy the product warranty and free maintenance services.

01 How to wear

Please wear the device on your wrist correctly, about one finger from the carpal and adjust it to comfortable position. Below picture as reference.

Tip: Please wear the device a bit little tighter when heart rate monitor.

02 How to download & connect to APP

02.1 3 methods to download & install APP:

A. Find the QR code on setting page. Turn on the watch, open "Settings--About--Download QR code", scan QR code to download and install "GlorryFit" APP

B. Scan below "GlorryFit" QR code to download and install " GlorryFit" APP

C. Search "GlorryFit" in App Store or Play Store to download and install " GlorryFit" APP

02.2 Open "GlorryFit" and select "Add Device" on the device page, then follow the instructions on the screen.

02.3 How to connect to BT call feature:

- (1) Android phone: After the APP and the watch are successfully bound, it will automatically prompt whether to pair with the audio Bluetooth KW200PLUS (ID-xxxx), and you can directly pair it ;
- (2) IOSphone (IOS model system version 13 and above supports one-key connection prompt) and some Android mobile phones: After the APP is successfully bound to the watch, when using the phone function, you need to manually enter the phone settings--Bluetooth--Search audio Bluetooth KW200PLUS (ID-xxxx). Click to pair the audio Bluetooth KW200PLUS (ID-xxxx), and the phone function can be used normally only after the pairing is successful.

Tips:

- (1). Please upgrade the app to latest version to get a better experience.
- (2). Andorid 5.0 and IOS 9.0 or above system are compatible with the App.
- (3). For the first time connection with iphone, "Pair" reminder will pop-up, click to pair, then incoming calls and instant messages will be pushed.
- (4). For the first time connection with android, "Permissions" reminder will pop-up, please follow up the guidance and allow permissions to ensure all functions working properly.
- (5). To connect successfully, please turn on mobile phone's bluetooth, GPS and network.
- (6). If the device cannot be searched or connected during use, please reset or turn off the watch to try again.

FCC Caution :

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
