SNAPSTYK™
Cell phone case and selfie **STYK** in one

USER GUIDE
iPhone 6, 6s, 7
Samsung S6

Important step to enable your Snapstyk for 1st time operation:

1. Open battery cap indicated below. Remove the transparent isolator under the battery. LED light will blink and wait to pair. Do not reverse battery. Secure battery cap.
2. If Bluetooth does not pair, please retract and extend the telescoping handle as shown to the left. Bluetooth will start blinking and waiting to pair.

** Do not retract and extend the telescoping handle too frequently within a short period of time. Your mobile phone will not be able to pair or connect.

1 Opening the telescope handle:

SUIGHTLY rotate to the left (iPhone), right (Samsung) to release the telescope handle from the locked position. **DO NOT OVERTURN.**

Proceed to fully rotate telescope handle towards the outside of the case as shown.

4

Fully extend the telescope handle by pulling the STYK down in one fast motion and start SNAPPING!

Bluetooth mode will be triggered once the handle is extended. (Initial Bluetooth pairing is required. See next page for Instructions)

Initial Bluetooth pairing instructions:

- 1- Fully extend Snapstyk's handle. LED light will turn on indicating that it's ready to pair.
- 2- Turn your device's Bluetooth on and pair with "SnapStyk."
- 3- Snapstyk will automatically sync to your device everytime the telescope handle is extended and your device bluetooth is enabled. (Pairing is only required before first time use)

The device has been evaluated to meet general RF exposure requirement, The device can be used in portable exposure condition without restriction

FCC statements:

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is Subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Radiation Exposure Statement:

The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.

Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.
