

Bluetooth USB Adapter

User Manual

I . Disable Built-in Bluetooth Before Plugging in Adapter otherwise the adapter will not work

- 1 Check if there is built-in Bluetooth in your computer before plugging in the adapter:
① Option 1: Press the "Windows" + "X" to select "Device Manager".
② Option 2: Right-click "This PC" -> "Manage" -> "Device Manager".
If there is a "Bluetooth" icon in the "Device Manager", please follow the steps below to disable it. If not, please skip this part.

-1-

- 2 Disable Built-in Bluetooth
Double-click the Bluetooth icon > right-click on "Intel(R) Wireless Bluetooth" > select "Disable device" > Click on "Yes".
Default Bluetooth: Generic Bluetooth Radio, Intel(R) Wireless Bluetooth (R).

-2-

II . Windows 7 (Driver is Required)

- 1 Download the Driver:
① Download the driver online or scan the QR code
<https://bit.ly/4aQ1kwI>
Download Wizard:
1. No need to log in or register.
2. If a login or registration dialog box appears, please click "or continue downloading only" below the dialog box.
3. Click on the download icon in the upper right corner of the page.
- 2 Install the Driver:
① Unzipped the package, then double-click "setup.exe" and follow up the wizard to complete the installation.
You can also refer to the "Installation Guide" in the package for more detailed information.
② Once finished, restart your computer

-3-

Pair Bluetooth Devices:

- 1 Plug the adapter into a computer connected to the internet.
Note: DO NOT plug the adapter into your computer before disabling the built-in Bluetooth.
- 2 Right-click the Bluetooth icon in the taskbar and choose "Add a Bluetooth Device" or select "Start" -> "Settings" -> "Devices". Please ensure to turn on your device's Bluetooth.
- 3 Select your Bluetooth device from the list and follow the wizard to complete pairing.

-4-

III. Windows 8.1/10/11 (Plug and play)

The usage method is the same as step 1. If unsuccessful, please check if the automatic update of Windows system is enabled or download the driver (<https://bit.ly/4aQ1kwI>)
The operation is as follows: Click on the "Start" icon in the bottom left corner of the computer -> "Settings"

Click on 'Update & Security'

-5-

Click on "Resume updates", after completion, plug the Bluetooth adapter again

-6-

Troubleshooting

1. Why is the Bluetooth function not working and computer shows "Error Code 31"?
The built-in Bluetooth in your computer is not disabled, causing the adapter cannot enable the driver, please disable it:
2. What should I do if the Bluetooth icon doesn't appear?
① Make sure you have turned on the Bluetooth in Windows settings
② Sometime the Bluetooth icon may be hidden: select "Start" -> "Settings" -> "Devices" -> Click "More Bluetooth Options" -> "Options" -> Check "Show the Bluetooth icon in the notification area".
3. Why can't I find my Bluetooth device?
Please ensure your Bluetooth device is in pairing mode.
Keep your Bluetooth device around/near the adapter at a range of 20m/66ft.
Please replug the adapter
TIPS:
1. Before doing the pairing job, please turn off the Bluetooth function of your other device, such as your cellphone to avoid your Bluetooth device such as Bluetooth headset wrong reconnection and it can't enter into pairing status.
2. you can unplug the adapter and wait for 15 seconds before plugging it in and trying again.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Exposure Warning Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.
