

Remote control automatic item

Automatic Car Umbrella
Shenzhen Mynew Technology Co.,Ltd

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna must not be located or operating in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

*Please read this manual carefully before using and safe keep the manual

1.Package details

Remote control automatic item:

Car Umbrella holder x1, Tarp x1, wireless remote controller x1,

4.Product specifications

Remote control Automatic specification:	
Product Name	Portable Car Umbrella
Unfold size	4000*2100mm
Fold size	220*220*850mm
N.W.	6KG
Color	Dark blue, Camo, Silver
Engine information	
Engine	8 slot brushed Engine
Power	10W
Current	1A
Max current	3.5A
Max power	900N
Battery	
Type of battery	Build-in Rechargeable Lithium Battery
Voltage	12V
Capacity	2200mah*3
Standard input	1A
Standard output	3A

5.Attention

- 1、 Please don't drive when using car umbrella!
- 2、 Please hook up the windproof hook after install the car umbrella!
- 3、 No using when heavy rain or heavy wind!
- 4、 When there is heavy wind weather please fold the car umbrella urgently , keep all snaps untie the tarp,then unlock the wind hook in case of being blown over.
