Bluetooth Connection

1. On your tablet, open the Bluetooth device search function (e.g., Start > Settings > Devices > Bluetooth).
2. Power on the keyboard (switch the side toggle to the "I" position). The blue LED remains on for 5 seconds and then turns off.
3. Press and hold Ctrl + F for 5 seconds. The Bluetooth indicator light (blue) will flash at a rate of 1 second on, 1 second off. From this moment, you have 30 seconds to establish the connection.
4. When "K09-A Folio Keyboard" appears, the Blue indicator light (blue) will remain steadily on for 5 seconds as confirmation. At this point, your keyboard is successfully connected to the computer and ready to use.

LED Indicator Light

White flashing: Battery level is low (below 20%)

Red steady: Charging in progress; light turns off when charging is complete

Installation steps

Disassembly steps

Keyboard Specifications

Connection Type: Bluetooth (supports Bluetooth 5.4)

Power Supply: Rechargeable lithium-ion battery, 400mAh/3.7V

Number of Keys: 78 Keys

Keyboard Dimensions: 188.6mm × 262.1mm × 16.2mm

Charging Voltage: DC 5V

Charging Current: 300mA

Recommended Keyboard Angles: 58°/66°

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
