

## Description of changes

**Company** Endress+Hauser Conducta GmbH+Co. KG  
Dieselstrasse 24, 70839 Gerlingen, Germany

as a manufacturer of products for liquid analysis declares, that the products

**Product** **Liquiline CM42B Plastic Housing**  
**Liquiline CM42B Stainless Steel Housing**  
**Liquiline CM42B Rail-Mount Housing**

**Remarks**

are identical with regard to their electrical, electronic and functional design. They are based on the same hardware platform and use identical electronic assemblies, printed circuit boards, software/firmware, measurement and processing functions, safety-relevant circuits and communication/interface functions. The differences between the variants are limited exclusively to the mechanical housing design, including housing material, housing shape and dimensions as well as the mounting concept (field housing or DIN rail mounting). These differences do not affect the functional operation, electrical design, performance or safety-related characteristics of the device. Therefore, the listed CM42B variants are considered technically equivalent, with differences solely related to the mechanical housing construction
