Charge time	< 2 hours
Uninterrupted Work Time	90 hours
Stand-by time	90 days
Front side of keyboard	ABS
Back side of keyboard	ABS

Indicator Lights Description

Pairing Steps

Pairing with the 1st device

Step 1. On the keyboard, slide the power button on.

Step 2. Press “” to switch channel 1, then long press “” for 5 seconds to enter pairing mode.

Step 3. On your bluetooth device, find the Bluetooth name “Bluetooth 5.1 Keyboard” and click for connection.

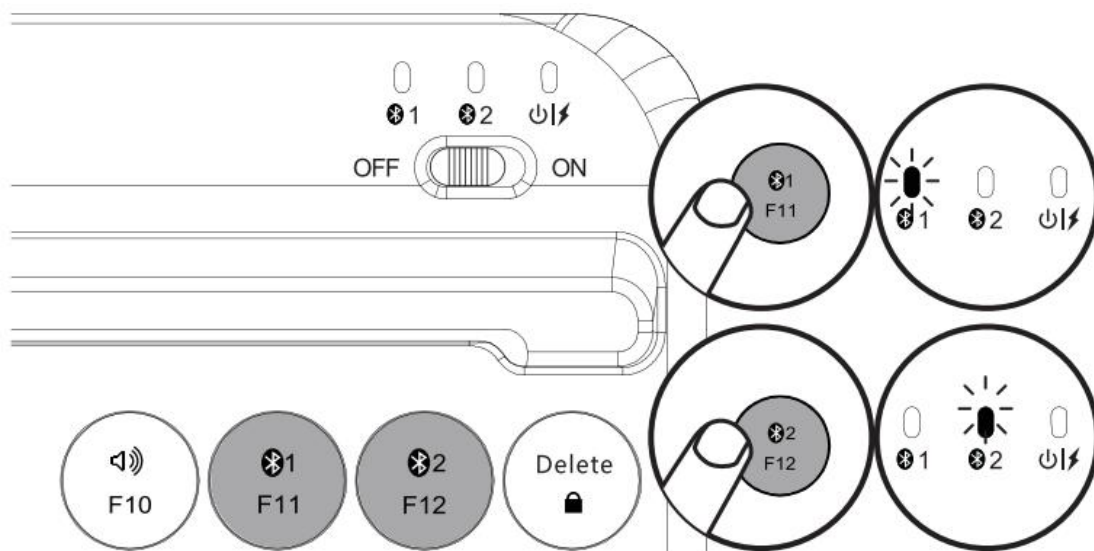

Step 4. The Bluetooth indicator will be OFF after successfully paired.

Pairing with the 2nd device

Step 1. Press “” to switch channel 2.

Step 2. Long press “” for 5 seconds to enter pairing mode.

Step 3. Repeat the above pairing step 3 and step 4.

NOTE:

1. Two devices can be actively paired at one time, only need to press “” key, changing to the accorded paired device.

2. Re-connection function: Turn on the keyboard, it can connect with the last used device automatically.

3. If connection is failure, delete the pairing record from your device, and try the above procedures again.

(UE37ES5500,UE55KU6400U,UE48JU6400),Mac mini and Nokia phones.

Power Saving Mode

The keyboard will enter sleep mode after being idle for 30 minutes.

To activate it, press any key and wait for 3 seconds.

How to Charge it

1. Use the included USB cable for charging. Connect one end to a USB charger, and the other to the keyboard. (USB charger is not included)
2. In charging, the power indicator will turn red. Generally, it takes approximately 2 hours for a full charge. (Output: DC 5V/500mA)

FAQ

If you are unable to connect the keyboard to your tablet, please try the following:

1. Starting with a full charge on both devices ensures that process won't be interrupted by a low battery.
2. Check your tablet's Bluetooth is on.
3. Make sure that the keyboard is within the effective operation distance of 32.8 feet (10 m).

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
