User Manual

2.4G WIRELESS & BLUETOOTH SOLAR KEYBOARD

Thank you very much for purchasing this keyboard ,please read this user manual carefully to ensure your new keyboard combo functions correctly.

Package Contents

1 x Wireless Keyboard
1 x 2.4G USB Receiver
1 x User Manual

Specification of Keyboard

Define the name	HD126-WPKB02
Operate system	Windows 7 and above ,other Bluetooth devices
Battery	600mAh(NI-MH battery)
Sleep time	30 minutes after Stop using the keyboard
Battery life	1000 times charge and discharge
Key life	3 million strokes
Standby time	600 H
Continuous working time	200 H
Wake up way	Click any key
Dimensions	438.5*155.6*20.3MM
Operating distance	Within 10 meters
Low voltage	The power light turns red and goes off 5 seconds later
Working current	≤2MA
Power supply mode	Solar energy charge(Lumination intensity ≥ 1000lux)

About keyboard

This keyboard adopts Solar Charging technology. There is no need to plug in a power supply to charge. As long as the keyboard is exposed to light(both sunlight and lamp light), it will be charged at any time.

Product Layout

Keyboard Features

1.THE ULTIMATE POWER & RECHARGEABLE ENERGY

• Solar-powered and charged keyboard works under all light sources such as sunlight and/or indoor lightning

• Built-in 600 mAh rechargeable Lithium-ion battery lasts over 2 months even in total darkness(hassle-free, no need to replace battery)

• On/Off switch to save battery life

2. Dual mode and multi connection channel

Using advanced wireless 2.4GHz and Bluetooth 3.0 connectivity technology, you can easily connect the keyboard to your computer/laptop by plugging the nano-receiver into the USB portor. It also supports Bluetooth connection. You can connect with tablet or smart phones by Bluetooth.

1 RF and 2 Bluetooth channels allow three devices to connect.You can do switch by pressing the channel key on keyboard.

3.MAXIMUM TYPING & ERGONOMIC PROFICIENCY

• 110 full size, thin and quiet Scissor-Key-Switchg keycaps for a sensitive and responsive touch

• 17-key numeric keypad to quickly and efficiently enter long sequences of numbers

• Concave key cap design for faster and a more comfortable typing experience

• Anti-Slip Grips with added weight tilt bar for comfortable typing

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the

party responsible for compliance could void the user's

authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and(1
- (2) this device must accept any interference received, including interference that may cause undesired operation.
