

Family Certification Attestation Letter

Dear Regulatory Authority,

Equipment models: All models have same construction, circuit diagram and PCB layout but the length are different.

LB-L15E are same to the model LB-L15D, these models are same PCB Layout, Schematics, BOM. Only for different model name for different market require(Different sales regions, E representatives online, D representatives offline).

LB-L16E are same to the model LB-L16D, these models are same PCB Layout, Schematics, BOM. Only for different model name for different market require(Different sales regions, E representatives online, D representatives offline).

LB-L17E are same to the model LB-L17D, these models are same PCB Layout, Schematics, BOM. Only for different model name for different market require(Different sales regions, E representatives online, D representatives offline).

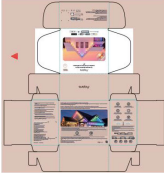

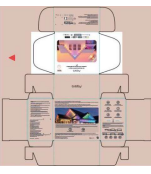

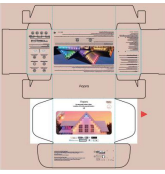

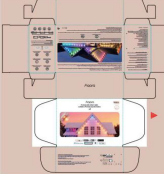

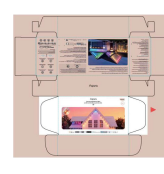

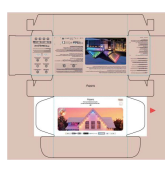

Hardware Version Identification Number (HVIN): LB-L15E, LB-L16E, LB-L17E, LB-L15D, LB-L16D, LB-L17D

Equipment Description: Permanent Outdoor Lights H1

FCC ID:2AKIT-LBL17

IC: 22635-LBL17

The differences list as below

Location	Model:LB-15D	Model:LB-15E	Model:LB-16D	Model:LB-16E	Model:LB-17D	Model:LB-17E
Equipment description	Permanent Outdoor Lights H1	Permanent Outdoor Lights H1	Permanent Outdoor Lights H1	Permanent Outdoor Lights H1	Permanent Outdoor Lights H1	Permanent Outdoor Lights H1
Length of LED strip(m)	15m		30m		45m	
Distribution chains	In stores sales Canada & US	Sales on line https://www.aqara.com/en/	In stores sales Canada & US	Sales on line https://www.aqara.com/en/	In stores sales Canada & US	Sales on line https://www.aqara.com/en/
