Fairfield, OH 45014

Thank You For Purchasing!

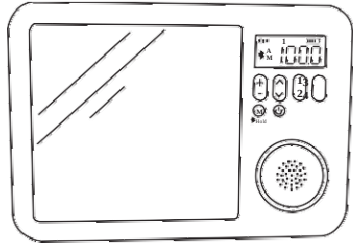

This is the only fog-free shower mirror radio that plays music wirelessly from a smart phone or tablet. Only available from Hammacher Schlemmer, it pairs with any Bluetooth-enabled smartphone or tablet, playing your preferred morning music through a built-in waterproof 1 1/2"-diam. full-range speaker. Its integrated AM/FM radio provides four station presets, ideal for informing oneself as to weather, traffic, and news before heading out. Its pivoting mount attaches to tile or glass with three silicone suction cups and includes two slots for razors. The 5 1/2" x 5 1/2" optical-quality glass mirror provides ample viewing for shaving. Its rechargeable battery provides a full month of audio from a six-hour charge from the included USB charger cable.

!Warning

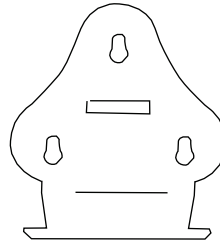

- DO NOT use alcohol or solvents to clean the mirror surface.
- DO NOT immerse the mirror in water.
- If cleaning is needed use lightly dampened (water) cloth to wipe surface.
- Frequent cleaning will weaken the fog-free coating.

What's Included

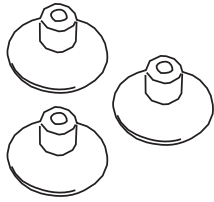

a)

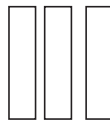

b)

c)

d)

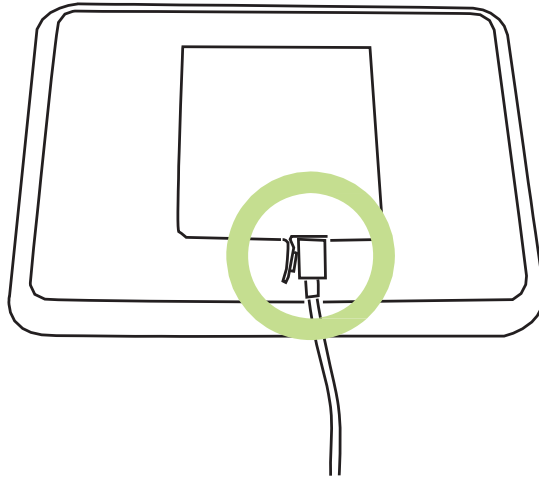

e)

- a) Bluetooth shower mirror.
- b) Mirror mount.
- c) Suction cups.
- d) Adhesive strips.
- e) Charger cable.

1 Charge the Bluetooth Mirror

1a) Plug the charger cable into the bluetooth mirror's waterproof plug. Plug the charger cable into a USB port(not included) on a computer or phone charger. The device will be fully charged in approximately 6 hours. (see image below)

Mounting

There are two ways to mount your mirror:

- (Step 2) Using suction cups. Recommended if the location you wish to mount the mirror has a large smooth surface.
- (Step 3) Using adhesive strips. Recommended if the location you wish to mount the mirror does not have a large smooth surface.

2 Mounting with Suction Cups (optional)

2a) Clean the area where the suction cups will be mounted. Make sure the surface is smooth.

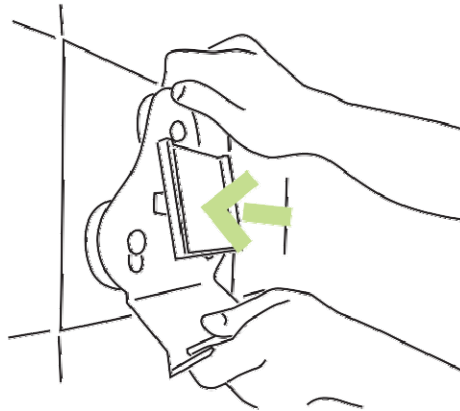

2b) Separate the bluetooth shower mirror from the mirror mount.

2c) Insert the suction cups into the mirror mount slots, then lock them into place by pushing them towards the narrow end of the slot. (see image below)

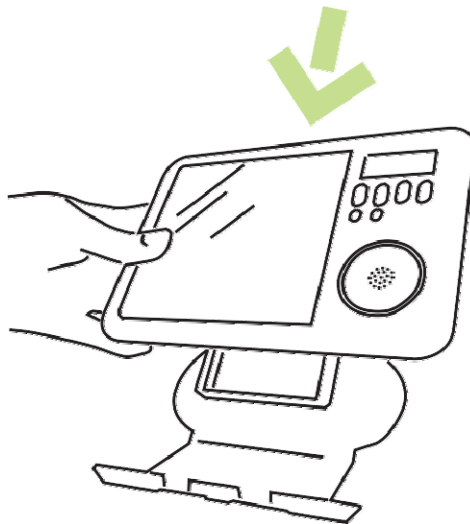

2) Mounting with Suction Cups Continued

2d) Now connect the mirror mount to the wall by pushing firmly towards the wall. Firmly pull back on the mirror mount to test the connection. (see image below)

2e) Slide the bluetooth mirror onto the mirror mount. (see image below)

3 Mounting with Adhesive Strips(optional)

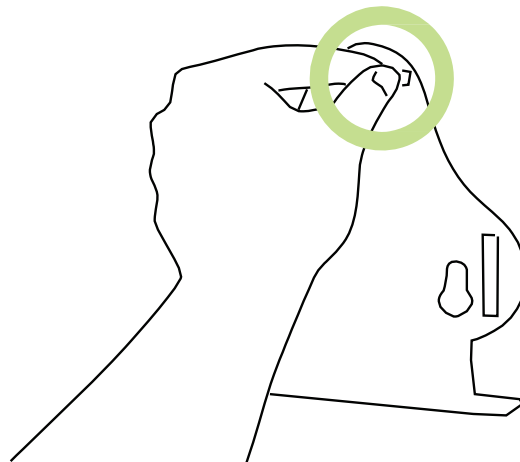

3a) Clean the area where the strips will be mounted. Make sure the surface is dry.

3b) Separate the bluetooth shower mirror from the mirror mount.

3c) Remove the protective film on one side of the adhesive strip. (see image below)

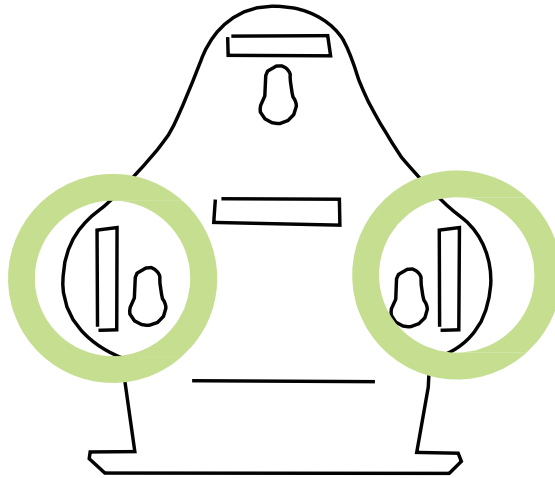

3d) Stick the adhesive strip onto the back of the mirror mount as shown, then remove the protective film. (see image below)

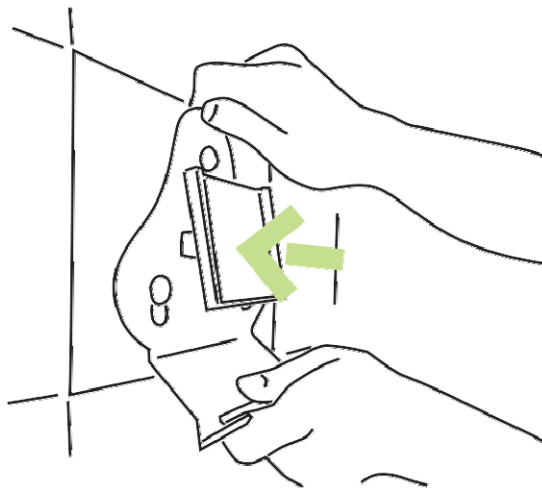

3) Mounting with Adhesive Strips Continued

3e) Repeat steps 3c-3d for remaining two adhesive strips.(see image below)

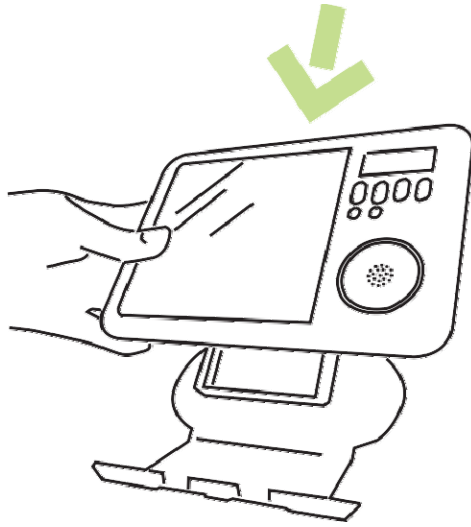

3f) Now connect the mirror mount to the wall by pushing firmly towards the wall. (see image below)

3) Mounting with Adhesive Strips Continued

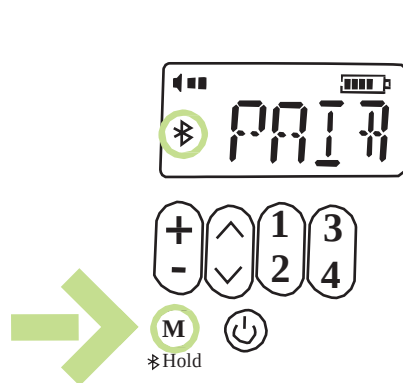

3g) Slide the bluetooth mirror onto the mirror mount. (see image below)

4) Programming Bluetooth

4a) Power on the device.

4b) Press the mode button until you enter bluetooth mode.

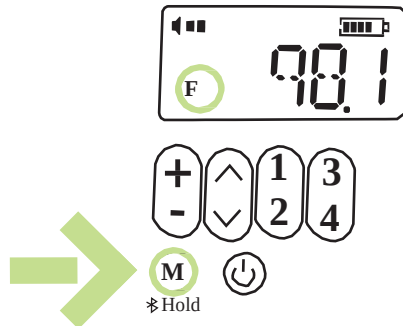

4c) The device will count down from 30. During this time, enter your bluetooth media player's bluetooth settings. There should be a device called 389BT. Selecting that device should pair your bluetooth media player with the bluetooth mirror. The bluetooth mirror will remember your bluetooth media player.

4d) If you wish to switch bluetooth devices, hold down on the mode button for 2 seconds and follow steps 4b-4c with your new device.

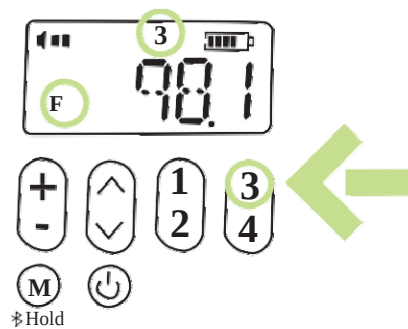

5) AM / FM Radio

5a) Power on the device.

5b) Press the mode button until you enter AM or FM mode

5c) To save a station, scroll to your desired frequency, then press and hold a preset button(1-4)

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body
