FCC Statement

This equipment has been tested and found to comply with the limits
for a Class B digital device,
pursuant to Part 15 of the FCC Rules. These limits are designed to
provide reasonable
protection against harmful interference in a residential installation.
This equipment generates
uses and can radiate radio frequency energy and, if not installed and
used in accordance with
the instructions, may cause harmful interference to radio
communications. However, there is
no guarantee that interference will not occur in a particular
installation. If this equipment does
cause harmful interference to radio or television reception, which
can be determined by turning
the equipment off and on, the User is encouraged to try to correct
the interference by one or
more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from
that to which the receiver is
connected.
-- Consult the dealer or an experienced radio/TV technician for help.
This device complies with part 15 of the FCC Rules. Operation is
subject to the following two
conditions:
(1) This device may not cause harmful interference, and (2) this
device must accept any
interference received, including interference that may cause
undesired operation.
Changes or modifications not expressly approved by the party
responsible for compliance
could void the user's authority to operate the equipment.
