

FCC Confidential Authorization
Long term confidentially for internal photos – Attestation letter

2020/03/26

FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Long term confidentiality request regarding application for certification of FCC ID:
2AKQSALE1F5

In accordance with Sections 0.457 and 0.459 of the Commission's Rules, *Aiut sp. z o.o.* hereby requests long-term confidential treatment of internal photos accompanying this application. This is justified by the fact that the equipment is impossible to disassemble and its enclosure is chemically bonded and hermetically closed. The device is designed as irreparable, neither service staff nor users can open it without damaging its enclosure. As the device is compliant with IP68 (can work submerged in 1 meters water deep), the attempt to open the enclosure will result in loss of the device operability. Once the batteries of the device are discharged or in the event of technical failure, the device must be replaced with a new one. Non-transparent enclosure of the device makes the observation of its interior impossible.

Sincerely,

Grzegorz Szolc
