Hold on the function button of the left earbuds about 2 seconds.

How to Wear the Headset

1/ Choose the right earplugs so as to fit your ears.

2/ Adjust the headset to a comfortable position.

3/Start your music journey

How to charge the earphone

- It is recommended to fully charge the earphones when using for the first time.

Please cover the lid when charging

1) Charge the charging box

When the earphone is placed in the charging box, the indicator light will be green and will be off after 20 seconds. The remaining capacity of the charging box is four levels, which are: 25%-50%-75%-100%

2) Mobile phone emergency charging

This charging box has a mobile power function, and the charging box USB standard interface can provide 20% of the power of the mobile phone for emergency charging.

Open the lid and connect it with a USB charging cable to charge the phone.

3) Mobile phone emergency charging

A: When charging the earphone, the red indicator light of the earphone flashes.

B: When only one earphone is full, the earphone will light blue until the other earphone is full.

C: When the two earphones are full, the earphones will light blue and then go out.

D: When the earphone indicator is completely off, it indicates that the earphone has been fully charged.

How to Pair the Headset

1) Take the headphones out of the charging box; and the earbuds will automatically power on and Right earbuds will enter into the state of the red and blue lights alternately flashing.

2) Turn on the Bluetooth function of your device, find "U-mini R" in the search results, click it and wait for them to pair automatically.

Turn on the Bluetooth of your device; find the " U-mini R" in the search results; and click to pair the Headset with the device.

Tip: the headset will remember the device previously it paired with. If you have paired them before, you only need to turn on the device's Bluetooth and the headset (press and hold on the multi-function button for 3 seconds), they will be automatically connected without entering into the pairing mode again.

Note: please complete the pairing in 10 minutes, otherwise the headset will automatically power off so that you will need to put the headset back to the charging box and then take it out to power it on.

Unpair

Unpair When the headphones need to be used simultaneously for a single ear, the following operations are needed to unpair them so as to prevent their automatic interconnection.

Put the headset into the charging box; press the headset to enter into the charging state (red light is constantly on); and press the function button three times to successfully unpair them (the red and blue lights flash simultaneously once).

Pairing of headpones:

1. Take the earphones out of the charging box; and the headset will automatically power on and enter into the state of the red and blue lights alternately flashing.
2. Simultaneously press and hold on the function button until the blue light flashes (the red and blue lights stop flashing alternately); wait for the headphones to complete the pairing automatically.
3. When paired successfully, the right earphone enters into the pairing mode (the red and blue lights flash alternately while the left earphone's indicator light does not flash).
4. Complete the pairing with your phone according to the method described above.

Q&A

Q: Why can't my headset be charged?.

A: Please cover the charging box's lid and keep the charging contact clean.

Q: Why can't my headset be powered on?

A: Please recharge it and make sure the headset has enough power. Put the headset into the charging box to check if the indicator light is constantly red.

Q: Why can't the two headphones be paired with each other?

A: Put the two headphones back into the charging box for 5 minutes to reset, and then retake them out of the charging box and pair them according to the method for first use.

Q: The wireless headset's signal is not good?

A: Bluetooth is a short-range wireless communication technology. When we say that it has a transmission range of 10 meters, such range does not include all kinds of environment and special circumstances. Please check whether there is any electromagnetic interference around.

Q&A

Q: Why can't I hear the other when I'm on the phone, or listening to music?

A: Please confirm the following points:

- 1) When you're on the phone, please select the speaker mode as "U-mini R".
- 2) When there is a call in, please click the multi-function button on the headset to answer it.
- 3) The connection modes of this wireless headset include "mobile audio" and "multimedia audio". Please confirm that both are allowed on your mobile phone.

Q: Why can't the headset pair with my device?

A: Please confirm the following points:

- 1) Please confirm whether the headset is powered on and enters into the pairing mode (the right headphone is red and blue alternately flashing; and the left headphone is slowly flashing blue light).
- 2) Please confirm whether the headset has been connected to other devices. If so, please disconnect and close the Bluetooth of that device.
- 3) Please confirm whether the headset is within the range of 10 meters.
- 4) If the above steps cannot solve the problem, please contact our after-sales service.

1. Notes:

- Please use this headset according to local laws and regulations.
- Please place the headset in places where children can't reach them. Swallowing some parts can result in severe consequences such as suffocation.
- Please don't place the headset in an extreme cold or heat (below 0 °C (32 °F) higher than 45 °C (113 °F)) place; it will lead to let this device have deformation, reduce its battery's charging capacity and shorten its service life.
- Please don't wet the device or operate it with wet hands because liquid will damage the device.
- Please don't keep in a high sound volume for long hours, as this will damage your hearing. Please listen to music or make phone calls at the lowest volume.
- Please charge this product at least one month to extend the battery life.
- Standard 5pin USB interface, please use the charger of 5V1A to charge the charging box.
- Please note that if the product is not used for a long time, the battery capacity will slowly drain away.
- "Caution" - improper use of battery in this product may cause fire or chemical burns. The battery may explode in case of damages.
- Dispose the battery according to local regulations. Recycle, if possible. Don't dispose the battery as household garbage or throw it into the fire so as to avoid any explosions.

2. Warranty

- This warranty covers any defects in production techniques.
- This warranty does not include problems caused by negligence or failure to follow this User Manual.
- If you have any questions, please feel free to contact us!

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
