True Wireless Stereo Pairing

1. First, turn on both speakers. Press and hold the "M" button on either speaker for 2 seconds to enter TWS pairing mode. Wait for about 5 seconds until the pairing is successful.
2. After successful pairing, the main speaker's orange indicator light will stay on, while the secondary speaker's orange light will flashes every three seconds.
3. In TWS pairing mode, press and hold the "M" button on either speaker for 2 seconds to disconnect the TWS connection.
4. If no pairing is successful within 3 minutes in TWS pairing mode, it will automatically exit the TWS pairing mode.
5. TWS can synchronize volume, sound effects, and light effects.
6. If the secondary speaker is turned off, the main speaker can still be used normally. If the main speaker is turned off, the secondary speaker will also turn off simultaneously.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
