Warranty and Limitations:

Limited 3 Year Warranty. To activate product warranty go to our website www.pomgear.com and register this product.

- Guarantee will not be applied to the damages caused by faulty usages.

Products that have been subjected to abuse, misuse, accident, alteration, modification, tampering, negligence, faulty connection, attachment to any unauthorized accessory, lack of responsible care, repair or service in any way that is not mentioned in this manual for the product. Such as any damage caused by dust, wetness, coldness, overheating, placement near hot objects, near fire storage or use of corrosive elements. No warranty in damage caused by natural disasters such as floods, fires, typhoons, earthquakes and related matters. To the extent permitted by law, POM GEAR Inc. Shall not be liable for damages beyond replacing the defective product.

Technical Support:

Please do not attempt to fix the product by yourself. If you are experiencing any problems with the product, you can contact a POM Gear representative and they will assist you with any questions, problems or concerns you may have.

Send an email to warranty@pomgear.com

Basic Use:

Power on: Press & hold multi-function button until blue LED goes on.

Power off: Press & hold the power button until red LED goes on.

Pairing: When unit is powered off, press & hold the multi-function button for about 10-15 sec until blue & red LED light begin to blink. The Bluetooth enabled device is discoverable. In unit is now in pairing mode. Make sure your Bluetooth enabled device choose "POM Gear Icon".

Volume control: While listening, press the V+ button to increase volume, or the V- button to decrease volume.

Music track: While listening, press & hold the V+ button for the next song, press & hold the V- button for the previous song.

Pause/Play: While listening, press the multi-function button to pause music. Press the button again to play music.

Answer/End call: Tap the multi-function button.

Reject call: Press the multi-function button for 1-2 second.

Redial last number: Double click the multi-function button to redial.

3

LED Indicator:

Low battery warning: Red LED flashing.

Charging: Red LED on when charging and blue LED on when fully charged.

Bluetooth connected: Blue LED flashing slowly.

Power on/off: When turning the earphones on the LED light will blink blue. When turning off the LED will turn red.

Bluetooth pairing: Blue and red LED flashing rapidly together.

Pairing The Bluetooth Earphones:

Pairing the device is quite simple. Put the earbuds and compatible Bluetooth device close to each other (no more than 3 feet apart). When powering on the POM Gear earbuds press and HOLD down the center power button on the controller. The voice prompt will say "Your POM Gear Device is ON."

***** DO NOT** release the power button for another 10-15 sec and the LED indicator lights should begin to blink red and blue. Your device is now in pairing mode.

From here you'll have to navigate through Bluetooth settings on your mobile device and choose "POM Gear ICON" from the list of all available Bluetooth devices within range. This should begin the pairing sequence.

Operation is subject to the following two conditions and (1) this device may not cause harmful interference, including interference that may cause undesired operation.

This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

7

6

After pairing is successfully completed, you will hear a tone in the earphones indicating that the connection has been established and the voice prompt will state "Your POM Gear Device is Now Paired. Enjoy!"

Now you can use your POM Gear ICON Bluetooth earphones to listen to music and make phone calls.

Making and Receiving Calls:

If the earphones are in use (ie, playing music) and you receive an incoming call, the music will be paused while you take that call. Music will resume automatically when the call is over. When you hear an incoming call, press the multi-functional button once to answer & then press once again to end the call. To redial the last number called, press the button twice quickly.

Connection & Standby:

When the Bluetooth earphones are turned on, they will connect automatically to the last connected compatible device within range and then it will automatically enter standby mode and will be ready for use.

FCC Statement

Changes or modifications not expressly approved by the authority to operate the equipment could void the user's warranty. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to follow measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions and (1) this device may not cause harmful interference, including interference that may cause undesired operation.

This device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Designed For Peace Of Mind
