

X04 OVERVIEW

GETTING STARTED

Power On X04

Hold the control button until the power LED turns on.

Pair to a Wireless+ device

X04 will start in pairing mode the first time. Both pairing LEDs will be flashing fast.

H10: H10 will start in pairing mode the first time. H10 and X04 will pair automatically.

Check your H10 or UNIT-4 Quick Start Guide for further pairing instructions.

Connect to audio

Connect to your audio source using the USB-C or 3.5mm mini-jack socket on X04.

Pairing mode

Double press the control button.

Check battery level

Check the power LED.

Red: <5 hours / Amber: 5-10 hours / Green: 10+ hours

WARRANTY

X04 is covered by a 2 year limited warranty. Become a member to get your 3 year extended warranty.

Regulatory Info

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.
