The 'NET' light blink

The 'NET' light blink

Short press the power on button on the speaker's back. The 'NET' light blink means it's starting. Waiting for 10s, when a voice notes sound means it's ready.

Configuration

Open the APP after setting up. Follow the below steps to connect your Flyears speaker to the internet. please make sure your iPhone or iPad already connects the WiFi router and you have your WiFi password.

setting up
