Subject: PART 15 UNLICENSED MODULAR TRANSMITTER APPROVAL

To Whom It May Concern:

We, **DynaScan Technology Corp.**, hereby requests for part 15 unlicensed modular transmitter approval of our device, described as follows:

Brand name: DynaScan
Model name: SKI.WB800D80U.5
FCC ID: 2AKWY-FBP207

In FCC Public Notice DA 00-1407 released June 26, 2000 there are eight numbered requirements that our device complies with:

1. The modular transmitter must have its own shielding.

Ans: Yes, Module transmitter has their own shielding. The shielding of the radio portion can be demonstrated in exhibition External Pohto.

2. The modular transmitter must have buffered modulation/data inputs

Ans: Yes, Buffere data inputs stage has been integrated in chip AIC8800D80.

3. The modular transmitter must have its own power supply regulation

Ans: Yes, The part number of the power regulator is AIC8800D80. Its own power supply regulation. Please referrer the schematics.

4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204c

Ans: Yes, The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition test report.

5. The modular transmitter must be tested in a stand-alone configuration

Ans: Yes, Please refer the test setup photo.

6. The modular transmitter must be labelled with its own FCC ID number

Ans: Yes, Please refer the label.

7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.

Ans: Yes, Please refer the User Manual.

8. The modular transmitter must comply with any applicable RF exposure requirements.

Ans: Yes, Please refer the exposure report.

Yours sincerely,
