DSD-8

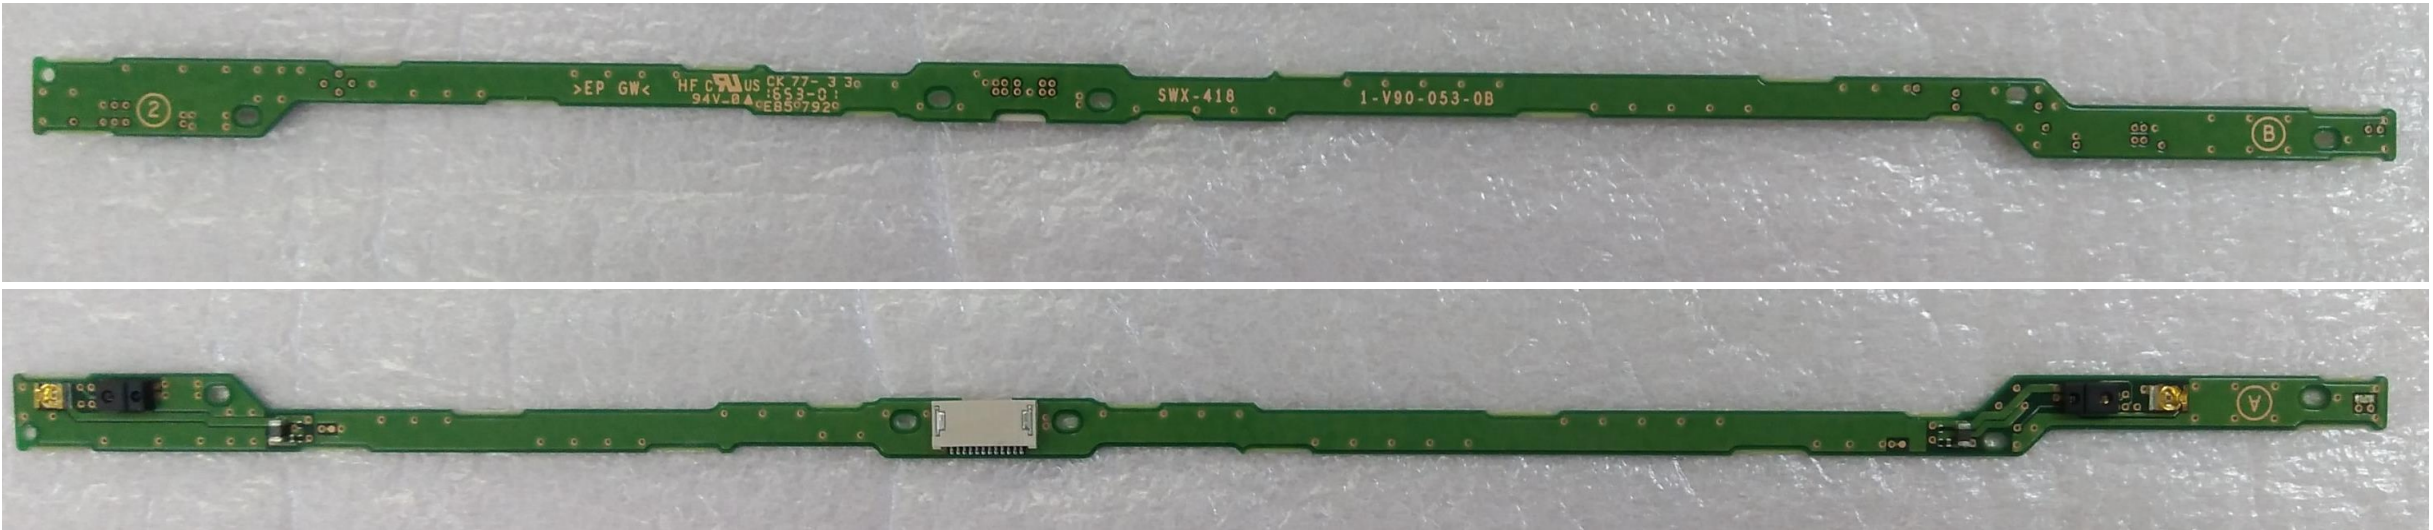

The image shows a green PCB component, possibly a camera module or sensor assembly. It features several circular mounting holes, some filled with orange solder. The board has gold-colored pads and traces. Markings on the board include "A", "E85792-653-0", "HF 88. CK77-83 3", "US 94V-0 A", and "CFL". There are also small rectangular components and soldered connections visible.
