(INCLUDED)

Battery Installation

Step 1: Use screwdriver to unscrew the two screws on the back.

Step 2: Take out the battery and remove the battery insulator.

1

2

Ensure that the CR2032 battery is placed in the tracker with the correct polarity ('+' facing down). Press the cover firmly until you hear a “click” sound. The LED will light up. Use screwdriver to tighten the battery cover securely.

Device Setup

Attached the device to your pet's collar with the provided band by:

- Hook one side of the band on to the tracker

- Pull band firmly across to the other side ensuring you place pet's collar in between band and activity tracker

- Hook the band onto the loop

09 UNLINK THE TRACKER FROM YOUR DEVICE

The Pet Activity Tracker can only work for one pet at a time. To use the tracker on another pet, Unlink the tracker from the device. All pet activity data will be deleted when the device is unlink.

10 ATTENTION

1. The Pet Activity Tracker is not medical equipment. Please consult your veterinarian for professional guidance and advice.
2. Please note that one account can connect to several trackers. If you want to use your tracker with a different device (account), please unlink the current tracker first. One tracker can only work for one pet. If you want to use on another pet, please unlink the device first.
3. The Bluetooth will stop searching for connection and enter to hibernation mode if there is no any connection after 90 seconds. Please shake it at least 3 seconds before use.
4. Pet Activity Tracker calculates every 10 minutes, if
 - less than 5 steps = as sleep
 - 5-15 steps = as rest
 - more than 15 steps = as awake

Product Specification:

Bluetooth version: 4.0

Bluetooth connection range: up to 10meters

Rating: 3V CR2032

Remark

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
