

## Antenna Specification

|                 |   |                                                                                                           |
|-----------------|---|-----------------------------------------------------------------------------------------------------------|
| Product         | : | PCB ANT                                                                                                   |
| Model Name      | : | SP512                                                                                                     |
| Manufacture     | : | Shenzhen QianChuan Smart Technology Co.,Ltd                                                               |
| Address         | : | Floor 6, No.10 South 2nd lane, Jiafu Road, Baihao Village,<br>Houjie Town, DongguanCity, Guangdong, China |
| Antenna Type    | : | PCB Antenna                                                                                               |
| Frequency Range | : | 915MHz                                                                                                    |
| Antenna Gain    | : | 0 dBi                                                                                                     |

Size:  
overall length: 74mm; width: 1mm
