Re: FCC Class II Permissive change for FCC ID:

Dear Examiner,

This is to request a Class II permissive change for FCC ID:2AL8N-TX001, originally granted on 08/03/2017

The major change filed under this application is:

Change #1: Add a shielding cover on to the 12V to 5V DC-DC module, with the size of 18mm*30mm*4mm.

Change #2: Tiny change of layout inside the shielding. We adjusted the position of the components inside the shielding in order to free the space for it.

Change #3: Add a new modulation type, for the HRP channel.

Sincerely,

A handwritten signature in black ink, reading 'Xing Yuanyuan', on a light-colored, textured background.
