BLUETOOTH EARPHONES SD-V1

USER MANUAL

Ⅰ、Introduction

Thank you for choosing the SD-V1 Bluetooth stereo earphones. This manual will help you operate your earphones. However please firstly familiarize yourself with the Bluetooth functionality of your Bluetooth mobile devices.

Safety Rules

1. Please follow the guidelines explained in this manual closely to ensure your safety before using the earphones.

2. Be careful of any sharp edges on the packaging etc.

3.These earphones do not contain any reusable parts so please do not modify or dismantle these earphones, doing so may invalidate your warranty and could cause electric shocks/fires.

4. Do not use any abrasive or volatile liquids to clean the earphones.

5. Do not use the earphones in a hazardous location.

Ⅱ、Pack Contents

1 x User Manual

Ⅲ、 Function Diagram

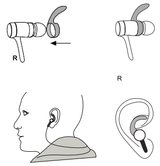

unite to power off　　separate to power on

Ⅳ、Wearing instruction：

1.We provide users with 3 different size earcaps and ear hangings，choose the proper one for best experience.

2.Ear Hanging installation make sure the left and right side (with mic) then slip the ear hanging into the earbud.

Ⅴ、How to use：

Power on	Separate the earphones to power on
Power off	Unite the earphones to power off
Pairing	Separate the earphones to enter into pairing mode (the blue LED and red LED flashes alternately). Then select "SD-V1" in your Bluetooth device for connecting.
Play/pause	Press "MF" button to play when the device is paused and press MF button to pause when the device is playing
Volume up	Press and hold "+" button to increase the volume output
Volume down	Press and hold "-" button to decrease the volume output
Previous	Press "-" button to skip back previous track
Next	Press "+" button to skip forward next track
Answer call	Press "MF" button for 1 second while the call is coming
End call	Press "MF" button for 1 second to end call
Reject call	Press "MF" button for 2 seconds and release to reject an incoming call
Redial call	Double click "MF" button to redial your last call
Low battery warning	Voice prompt "Low battery", the red LED flashes.
Charging	Plug the micro USB adaptor to the micro USB port on the earphones, then plug the USB adaptor to a sub socket eg on a computer or on a USB charger. When charging, the red LED light is on. When charging is completed, the blue LED light is on.
Factory reset	In any mode, press and hold "+" and "-" at the same time, then the earphone will reset to the factory setting

5.2 Pairing to Bluetooth Devices

To use your Bluetooth stereo earphones, you must firstly pair them with a Bluetooth device. Once your earphones are paired to a specific device, they will remain paired when they are within range.

5.3 Pair two devices at the same time

After pairing the first device, switch off the Bluetooth function on the device. Then turn on the second device to pair with the earphones after the second device is successfully paired with earphones, switch back on the Bluetooth function on the first device. Both devices now connected to the earphones so you can select music from either device.

5.4 Handle two calls (this function is available on smart phones which can receive two calls)

When conversation, a new call is coming
1. Press "MF" button to end current call and pick up coming call..
2. Double click "MF" button to keep the current call and pick up coming call.

3. Double click "MF" button to switch between current call and coming call.
4. Press "MF" button to end current call and resume the holding call.
5. Press and hold "MF" button for 2 seconds, reject new coming call.

Note: The above features depend on your smart phone which can support Bluetooth hands-free version 1.5, and the phone's call waiting (network service) feature already be activated.

Ⅵ、Technical specification

model	SD-V1
name	bluetooth magnet attraction sport earphones
weight	14Gg
bluetooth version	4.2
protocol	HFP/HSP, A2DP, AVRCP
power	Classll
transmission distance	about 10m (barrier free)
talking time	about 15h
music time	about14h
standby	about 230h
battery capacity	80mah*2＝160 mah (recycle polymer battery)
charge standard	Micro USB,DC5V-200mA
charge time	about2H
Speaker	
frequency range	20 Hz ~ 20 KHz
sensitivity	90±3dB （At 1000Hz）
maximum power	10mW
MIC	
frequency range	100Hz - 20KHz
sensitivity	-42dB±3dB
type	noise immunity

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions,may cause harmful interference to radio communications. However, there is no guaranteee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which thereceiver is connected.
-Consult the dealer or an experienced radio/TV technician for help
Changes or modifications not expressly approved by the party responsible for compliancecould void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
