

Labelling

The product after mounting components shall be delivered with an Identification Label which contains following information:

- The name 'Action Cam User Interface RFID Unit' in the first line.
- The FCC ID in the second line.
- The Eccel part number
- The Serial Number in the fourth line.
- The manufacturing date in the fifth line formatted as 'YYYY/MM/DD'.

The Serial Number shall be formatted as a six-digit number starting from 000001. The Identification Label shall be 30 mm wide and 26 mm high placed in the back side of the cover. This label is shown in **figure 2** below.

In addition to the product label, the following statement shall appear on the device itself. The position of this second label is denoted using darker grey outline on **figure 3**:
