Two: Specification
 Output power:RMS 3w*2
 Speaker:4Ω,3w, φ40mm
 Battery capacity:400mA
 Bluetooth version:3.0
 Input power:DC5v 500mA
 Max Consume Current:500mA
 Frequency response:90-18KHz
 Sensitivity:500mv±50mV
 Signal to noise ratio:≥ 70db
 The distortion degree :≤ 0.3
 Working time:Sustains 3. 5-7h operation;
 Charging time:about 2 hours
 Functions:Bluetooth/NFC/FM radio/
 TF card/Audio in

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two
 conditions: (1) This device may not cause harmful interference, and (2) this device must
 accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital
 device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable
 protection against harmful interference in a residential installation. This equipment generates,
 uses and can radiate radio frequency energy and, if not installed and used in accordance with
 the instructions, may cause harmful interference to radio communications. However, there is
 no guarantee that interference will not occur in a particular installation. If this equipment does
 cause harmful interference to radio or television reception, which can be determined by turning
 the equipment off and on, the user is encouraged to try to correct the interference by one or
 more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is
 connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Shenzhen
 iSodo Technology Co., Ltd may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by
 unauthorized modifications to this equipment. Such modifications could void the user's
 authority to operate the equipment.
