Table of Toxic and Hazardous Substance / Elements and Their Content

According to China << Electronic information products pollution control measures>>

ingredients	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Cable	X	0	0	0	0	0
PWAs	X	0	0	0	0	0
Plastic parts	0	0	0	0	0	0
Membrane	0	0	0	0	0	0
Meter parts	X	0	0	0	0	0
Rubber dome	0	0	0	0	0	0

O=stands for this toxic and hazardous content in homogeneous material is under the SJ/T11363-2006 Standards limits.

X=stands for this toxic and hazardous content in homogeneous material is beyond the SJ/T11363-2006 Standards limits.Under the ingredients with "X" in the form all are up to ROHS "on 27 January 2003 the European parliament and the council announce electronic equipment in limiting the use of certain hazardous substances directive 2002/95/EC"

Note: the environmental protection using period reference standard depends on the product of regular work temperature and humidity conditions.

Warranty

We warranty for (1) year from the date you purchased our keyboard from an authorized retailer("Express Microsoft Period"),We warrants that our product or Accessory will not malfunction due to a defect in materials or workmanship under Normal Use conditions.

Product Model Specifications

(Please according to your products model view the products specification)

1. Standard MICRO interface
2. Operating distance up to 10 meters
3. Modulation system: GFSK
4. Operation voltage: 3.0-4.2V
5. Operating current: <2.5mA
6. Standby current: <0.3mA
7. Sleeping current: <40uA
8. Charging current: $\geq 200\text{mA}$
9. Standby time: >200 days
10. Charging time: <2 hours
11. Lithium battery capacity: 280mA
12. Uninterrupted working time: >90 hours
13. Lithium battery life: 3 years
14. Lithium battery specification: 3.8*20*35mm
15. Keying force: 60 $\pm$ 10g
16. Key life: 3 million strokes
17. Operating temperature: -10 - +55°C

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
