

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

HOW TO CARE FOR YOUR SMART WATCH

Do not wear your smart watch whilst applying sprays or creams. Do not allow contact with any corrosive agent e.g. paint, solvents or adhesives, as this may affect the finish of the smart watch. Do not try to replace or disassemble the battery.

SILICONE STRAP CARE

To keep your silicone strap looking good, clean it regularly with mild soap and water to remove any dirt, oils, lotions etc, ensuring the case of your smart watch does not get wet. When you are not wearing your smart watch, we recommend you store it in the gift box received with purchase.

STEP COUNTER

Smart watches use multi-axis inertial sensors called accelerometers. These detect wrist movement in order to measure steps. However, some wrist actions whilst standing or sitting can mimic the arm movement of a step and can therefore falsely record steps. The step count recorded each day should be used as a guide only.

IP68

Your watch is IP68 and it is certified suitable to be submerged for up to 30 minutes to a maximum depth of 1.5 Meters.

We do not recommend our watches for use in saltwater. Always rinse and dry your smart watch after use.

GUARANTEE

Quality and style are at the heart of what we do. We certify this product is produced using premium materials and is fully tested before leaving our manufacturing centre.

Your product is guaranteed against any defective parts & construction for 2 years from the date of purchase. Your guarantee is only valid if you present your original receipt when returning the item. This guarantee provides you with rights in addition to your consumer statutory rights and therefore does not limit your statutory rights. Please note this guarantee does not cover lenses, bands, straps or bracelets, water penetration or batteries. Additionally, breakages caused by accident or maltreatment are not covered.

We hope you'll love your watch, but if you do have any problems please contact us and we'll guide you through the guarantee process.

SMART WATCH SAFETY & WARNINGS

Our smart watches contain components that emit electromagnetic fields, with some of the models containing a magnetic charging dock, please be aware that these models contain magnets. These electromagnetic fields and magnets may interfere with medical devices, such as pacemakers and implanted defibrillators. Please consult your doctor and medical device manufacturer if you use any medical device before using a smart watch. • The heart rate monitor is designed for recreational use only, it is not intended for any medical use such as diagnosing or monitoring any medical conditions. • The heart rate monitor periodically emits flashing lights, please consult your doctor before use if you have epilepsy or similar conditions. • The heart rate monitor usually provides an accurate estimate of your heart rate, but the reading can be affected by factors such as fit of the smart watch, the physical characteristics of the wearer and the intensity of the activity. • Your smart watch will help calculate distances covered. Please consult a doctor before starting new exercise regimes. • Our smart watches contain sensors to track your movement to closely estimate your activity, sleep etc. These close estimations are not always fully accurate. • Some wearers may suffer skin irritation if the smartwatch is worn for prolonged periods. Sensitive skin, skin allergies and medication could contribute to the irritation incurred and should be considered before use. If you notice any irritation you should remove your smartwatch. To help prevent any irritation please ensure the smartwatch is removed regularly for cleaning & do not over-tighten on your wrist. • We recommend you remove your smart watch each day for gentle cleaning.

BATTERY WARNINGS

Do not attempt to replace the battery, open the device enclosure or disassemble your product. Doing so can result in a safety hazard. • The integrated rechargeable battery cannot be removed or replaced. • Substances within your smart watch batteries may harm the environment or cause injury if handled or disposed of improperly. In the unlikely event of contact with battery acid, thoroughly flush the affected area with plenty of clean water and seek IMMEDIATE medical attention. • When the battery is fully charged disconnect from charger. Please take care to not overcharge.

DEVICE WARNINGS

This smart watch is a Class A product. In a domestic environment, this product may cause radio interference. In which case the user may be required to take adequate measures. • Ensure your smart watch correctly engages with the charging contacts. • Before each use, please check the product for damage, do not use if the product is damaged. • This is not a toy, children should not play with this product. • Never attempt to open your smart watch, this may result in danger. • Protect the product from strong impacts, vibrations, direct sunlight and dirt. • Do not place heavy objects on the product. • Do not exert pressure on the product. • Avoid strong magnetic fields e.g. loudspeakers. • Salt and thermal water can lead to the corrosion of metal parts. Remove the product before using saunas as the temperature difference can cause condensation. • Do not operate the product near heat sources e.g. radiators or other devices emitting heat. Do not cover the product during operation or charging. • Never use the product on aeroplanes, in hospitals, service rooms, or near medical electronic systems. The wireless signals transmitted could impact the functionality of sensitive electronics. • Do not use your product if the display is cracked. • Do not expose your product to extremely high or low temperatures. • Do not use abrasive cleaners to clean your product. • Remove your product immediately if it feels warm or hot. • Do not attempt to wear or operate your product whilst charging. • Do not charge your product if wet. • Do not check notifications or other applications on the products display while driving or in other situations where distractions could be hazardous. Always be aware of your surroundings when using our products and services. • Ensure your smart watch is removed at regular intervals for gentle cleaning. In the case of material damage or personal injury caused by incorrect handling or non-compliance with the safety instructions, no liability can be accepted by us. If you have any questions or concerns, please contact us, you'll find our contact details on this leaflet.

THANK YOU FOR CHOOSING OUR SMART WATCH! THIS SHORT GUIDE WILL HELP YOU WITH THE ESSENTIALS.

LET'S GET STARTED!

INSTALL THE CHARACTER CONNECT APP.

Search for Character Connect App to download onto your smart phone or tablet. Alternatively, you can scan the QR code below.

SMART WATCH INSTRUCTIONS

CHARGING GUIDE

Line up the 2 pins to the charging spots on the back of the watch case. • The pins are magnetic and will secure the charger in place. • Plug in the USB cable to a power source. • Once connected, the charging icon will appear on screen. • Charge the watch when it displays low battery. • A 2-3 hour charge time is sufficient to fully charge your smart watch, please take care to not overcharge.

CONNECTING SMARTWATCH TO THE APP

- Enable Bluetooth on your smart phone. • Open the Character Connect app. • Tap 'add device' on the homepage & select your model. • A unique 6 digit pairing code will be displayed on the watch & phone screen. If the codes match, accept and complete the setup. • Set your preferences and follow the guide. • Allow permissions when prompted to gain full functionality of your watch.

WATCH & APP ICONS

WATCH DIALS

To switch between the dials on your watch press and hold the screen and swipe left or right to view. • Once you have selected your dial tap to set.

DIAL SELECTION WITHIN APP

The app has a great range of character dials that compliment your watch.

Scroll across to see dial sets and tap to transfer to the watch.

Check out the dial library for more character specific designs!

Edit your own dial with wallpapers or your own photo.
