Dear Sir or Madam:

The nRF52805 installed in our product Heart Rate Monitor (model name: H003, H303, H603 ; FCC ID: 2ALZG-H003), which support BLE, ANT+, 2.4G protocols. But for this product, it only activates BLE and ANT+, the other functions are disabled by using software.

Please contact me if there is need for any additional clarification or information.

Sincerely,
