Attestation Letter

To Whom It May Concern,

The chip NRF52805 installed in our product Bike speed/cadence 2-in-1 sensor (model name: S3+, FCC ID: 2ALZG-S304), which supports BLE, ANT+ and 2.4G protocols. But for this product, it only activates BLE 1M and ANT+ functions, the other functions are disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely,
