DRAFT

Attach Your Compute Pack to a Pocket...

Slide the Compute Pack onto a pocket until it moves past the clip.

Please don't put the Compute Pack in a pouch or pocket while in use or block the vents.

The Compute Pack easily clips onto your pocket.

DRAFT

... Or to the Shoulder Strap

Clip the carabiners on the Shoulder Strap to the corresponding fasteners on the Compute Pack. Get comfortable by adjusting the length.

Fasten the carabiners on the ends of the Shoulder Strap to the Compute Pack to hold it into place.

DRAFT

Put on your Headset

Gently stretch the back of your Headset headband until it comfortably fits over your head. For the best comfort and visual experience, rest the Headset around the widest part of your head. If necessary, insert required pads and nosepiece from the included Fit Kit for an individualized comfortable fit for you.

The Headset adjusts to the width of your head by gently stretching the temples of

the device.

Prevent Tangling the Cords

Be sure to prevent the cord from getting tangled or wrapped around the headband.

The Headset cord should be clear of the headband accessory and torsion band.

DRAFT

Wear Glasses?

Pull the magnetic frame away from the Headset and replace it with the Prescription Insert. Order yours at Rochester Optical's FrameofChoice.com.

A correctly seated Prescription Insert.

DRAFT

Turn On Your Magic Leap

Press the button on the front of the Compute Pack and wait until the lights are fully illuminated.

The five lights towards the top of the Compute Pack will be illuminated when fully powered.

Identifying Buttons and Controls

Review the corresponding illustrations to become familiar with the buttons and controls of your new Magic Leap 2.

Identify the buttons and controls on the Magic Leap 2 Controller and Compute Pack pictured.

Set Up Your Device

Your device needs to be set up before you can use it.

1. Your Controller should be connected to your device from the factory. If it isn't already connected, pair your Controller to the Compute Pack using the USB-C to USB-C cable. You can then follow the prompts in your device.
2. Connect to WiFi using the Settings app.
 - a. Click on Network and internet.
 - b. Click on Wi-Fi.
 - c. Scroll through the list of WiFi using the touchpad and choose your preferred network.
 - d. For secure networks, a virtual keyboard will popup: Enter your password using the Controller.
 - e. Click "connect" on the WiFi screen.

Connect to WiFi through the Home > Setting > Network & internet menu, pictured here.

Charge, Clean, and Store Safely

Charge

For the best experience, make sure the device is fully charged every time you use it.

Clean

Make sure the device is turned off while cleaning. Remove the Forehead Pad, Nose Pad, and Lens Insert. Use a damp, but not wet, isopropyl alcohol wipe or sterile, lint-free cloth to gently clean the Headset, Compute Pack, and Controller. Use a damp, sterile, lint-free cloth to rinse and a dry one to finish.

Store

Safely store the device in the Carry Case or box provided. Always keep it out of direct sunlight to avoid damage.

For the full safety instructions, see the Safety Guide.
